At The Past

Baby 15

Another moment Another Memory

As The Class of 2002

After school, with the lights out
Ms. Potoff and I molded faces with damp clay caked in between the webs of our fingers.
And she danced
And I danced
And we danced
With the faceless mannequin in the corner of her room.
And I remember how rebellious we felt, for turning on the T.V. set.
But she was never too afraid
Or too in love
Or too worn out
Or too alive
To look me in the eyes when she told me to
"Relax, it's just freshmen year."

It was during a game,
In my sophomore year,
When I ran away from the crowd
And had my first perfect day.
Angela and me
She took me away,
and said "Everyone needs to escape"
even if it's just from a football game,
even if it's only for a half an hour,
even if you're only escaping to the top of a canopy
overlooking the same campus that you walk on
every...single...day.

We spent our time staring at the clouds
Because she said she always wanted to do that.
And when a plane flew by
She asked what I was thinking
And I don't remember how I answered.
I don't remember anything
Except thinking
That I live...I absolutely live...
For days like this.

Junior year was just a blur
Of late-night-drives
Along Doane Road,
And stopping at that perfect place
On top of the hill
Where the entire ocean looks like it was made for me.
Then the countless dances
And the limbo prizes
And the strange feeling
That it's always more fun to dress up
Then attend.

You'll be holding your milk carton
Or just standing in line
And it'll suddenly come to me
That I'll miss you the most.
And when nothing looks like you
And nowhere feels like you
And there isn't this silence anymore,
I'll wish it was still junior year.
I'll wish that you were still here
Holding that milk carton...Just standing in line.

And then it all ends with beginnings,
Like the first sight of our country tumbling down.
Like the first quiver from the President's voice,
Like the first announcement on first period
That David Tinney was gone
Like the first shock of Renee Carroll's accident.
Like the first tear drop after Kristy Sullivan's tragedy.

And yet we carried on.
We struggled through.
We grew up together.
As the class of 2002.

-Bad Religion

In times of crisis we must remain civil, reach out rather than close ourselves, remain focused despite confusion, grieve but not despair. The Universe is both impermanent and interdependent in nature. Death brings to our consciousness the realization of our own impermanence and can frighten us. But fear is just confusion. When we reach deep within ourselves and find the source of our fear we can conquer our minds. We must stay in full awareness and remain realistic about how our actions affect each other.

"The only thing that really matters in life is the self respect one has. If this is had, than there truly is nothing that anyone can't do. Friends are important, but if you are not happy with yourself than you cannot be happy with anyone. In a simple way, do things for yourself and everything will have a funny way of coming together. For everyone who will be here at Nauset next year, understand that bordering off who is your friend and who isn't will only block off yourself from everyone else. Isolation is the most terrible feeling in the world and no one should feel that pain. Absolutely no one. Even the worst enemy. Later."

Remembering David

Wish you were here
by pink floyd

so, so you think you can tell
heaven from hell
blue skies from pain. can you tell a green field from
a cold steel rail? a smile from a veil?
do you think you can tell?
and did they get you to trade your ghosts?
hot ashes for trees?
hot air for a cool breeze? cold comfort for change?
and did you exchange a walk on part in the war
for a lead in the role in a cage? how i wish, how i
wish you were here. we're just two lost souls
swimming in a fish bowl, year after year running
over the same old ground. what have we found?
the same old fears. wish you were here

We'll miss you David Tinney 1983 - 2001

We'll Always Remember...

Carol Potoff

Carol Potoff was an amazingly talented woman who lit up not only the room, but the whole campus with her smile and laughter. She didn't have any children of her own, but came to realize that her hundreds of students were her children. "Carol's gift was her artwork," said friend Toby Kalman. Ms. Potoff was a practicing artist who worked in many different mediums, including clay, jewelry, painting and drawing.

With her traveling imagination, she was able to come up with many fun and creative projects for her students. She helped her students realize their potential and pushed them to be their best. If you were down she would try to lift you up. She was always up for new ideas and helped those who struggled in art. "She was a mentor, a counselor, a friend," said friend Audrey Greenway. She loved costumes and holidays, especially Halloween. She was thrilled each year to make a scary costume and participate in the Orleans' Haunted House. Ms. P would also dress up for class as her alter ego, Miss Lulu, a 70 year-old woman.

Most people who knew Ms. P would agree with photographer Elsa Dorfman. "I feel it was a gift to know her, she had such flair. She was funny and dramatic and out there." She was a very special woman who was loved by many, and will be missed always by those who knew her.

Ms. Potoff, Ms. Greenway, Ms Novacon, Mrs. R[illegible] Dearborn, Amy Martin

Mrs. Potoff,

I just wanted to write you this letter
to let you know what an awesome
person you are and to tell you that
you have influenced my life
in such a good way.
You are such a wonderful person.
I feel we are put here to attain some
sort of goal. I feel that your goal
was to make the most out of your
life, be very positive and teach
children. Teach them not only your skills
but much more.
You have helped so many- kids with
their problems.
They would always look to you when they
needed help or were feeling sad.
And you could always help them.
I feel, and hope that you know, that you
have attained your goal, fulfilled
your purpose in this life.
And since this goal has been reached.
you are ready for your next.
ready to move on and help so many
others, as you have helped and influenced
me.
Not just Ms. Potoff but, who you are, your
essence, your spirit will be with me forever.
You will always be someone I will look
back and think about in my life.
One of the people who really touched
me in an important way.
I hope you are at peace with
your situation, because that is the
only way, acceptance.
We cannot survive if everything that is
unpleasant is eliminated, and not understood.
I love you so much and know your
spirit will live forever within me. -Kai Potter

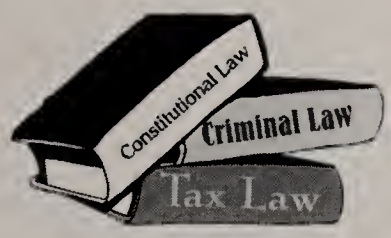
MOCK TRIAL TEAM



The goal of the Mock Trial Program is to further an understanding of the law, court procedures and our legal system while helping students to hone their analytical, listening and speaking skills. It also seeks to promote better communication and cooperation between school community and the legal profession. Using a hypothetical case developed by the MBI's Mock Trial Committee, students begin preparing for 3 preliminary round trials in December. Each team is required to present an opening statement, direct and cross-examinations and closing arguments. An estimated 75 attorneys are coaching teams. Herb Lach, Greg Nickerson, and Donna Robinson were the attorney coaches for the Nauset team.

This year's case involves an injury that occured during a high school co-ed softball game. During the State Finals, one team star was injured when struck by a ball. Was it a simple accident or was it a deliberate attempt to remove the player from the game? The students learn not only the law and rules of evidence but engage in discussions about the subject matter and how it effects school environment.

GAINING EXPERIENCE

FOR THE FUTURE

The School-To-Work program allows students to enter the community and work with professionals in a desired field while earning high school credit. Putting forth these efforts during high school years prepares students for future careers. As our adivsor, Mrs. Gammon helps us pursue our interests and keeps us on track throughout the year.

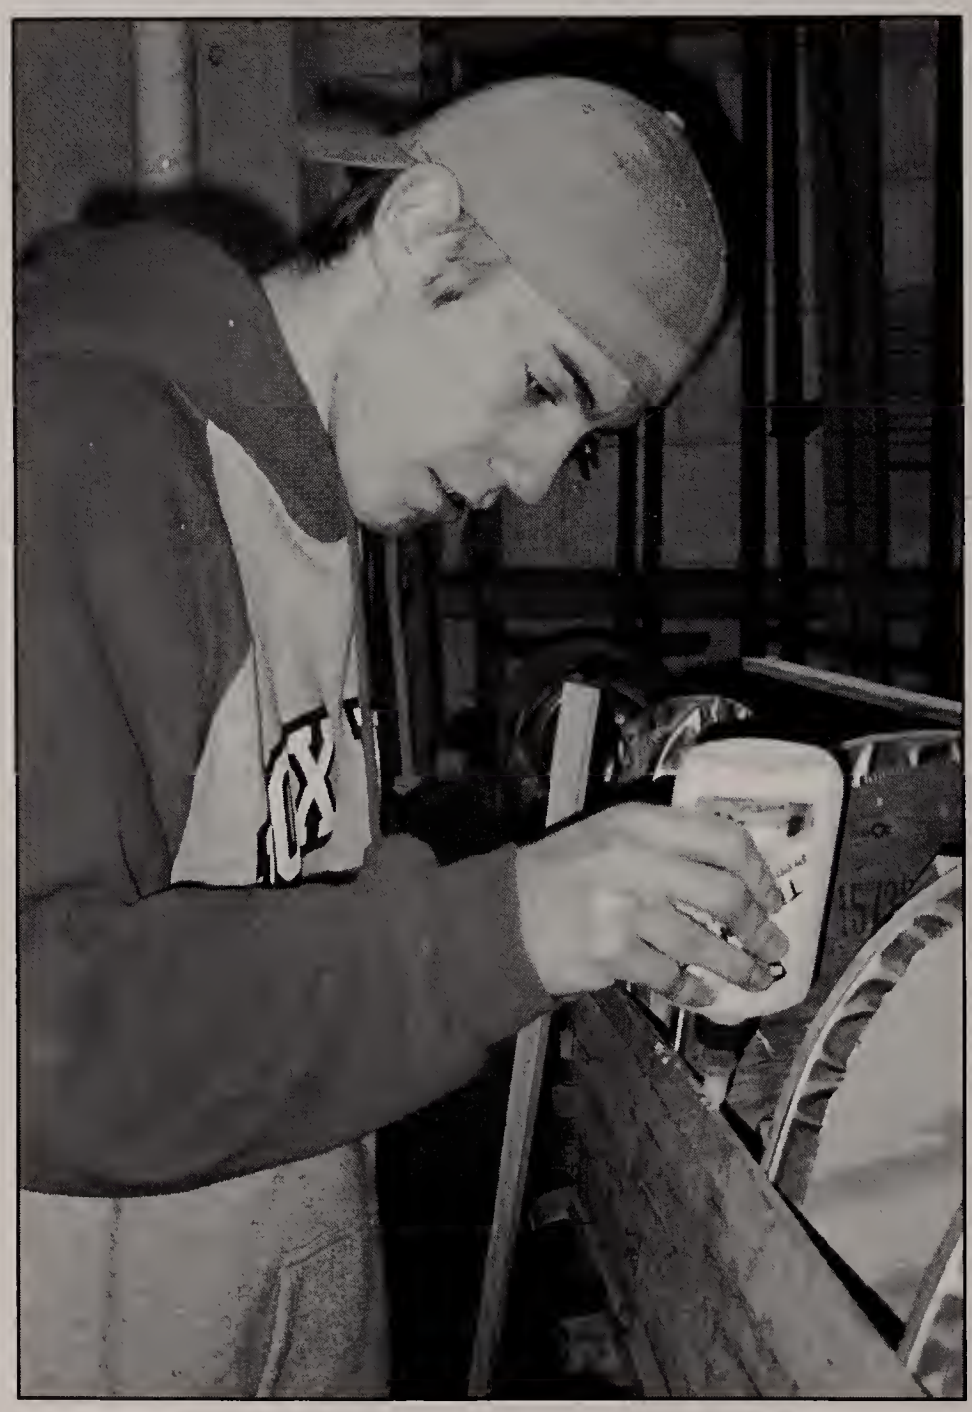
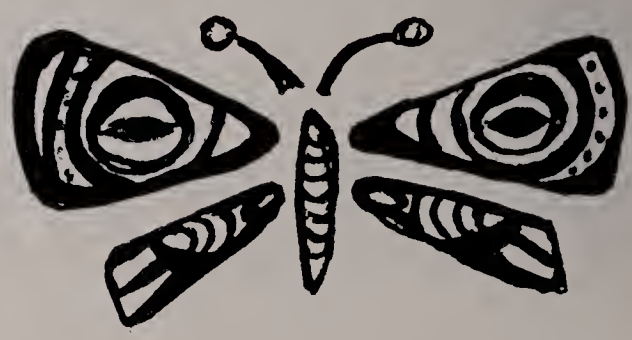
Fine ARTS

by Zach Bakunas



The Arts allow students to be directly involved in creating original work. A few of Nauset's students are featured here.

Students are offered a wide variety of classes, including crafts, guitar building, metal working, woodshop, clay, photography, printmaking, drawing, painting, and portfolio.



The Nauset Players started this heart felt season of 2001 with a production by Agatha Christie's, "And Then There Were None", set in the 1940's. It was a very entertaining time for everyone involved. Saddened by the events on September 11th, Nauset Players decided to do a fundraiser "With Stars In Our Eyes", to benefit the World Trade Center Restaurant Workers Relief Fund and the Nauset Drama Club.

Our New Year began with a touching and emotional Shakespeare production, "Hamlet", set in the year 2005. The city window backdrop and all black, silver, and gray costumes helped to eluminate the already shining tragedy. The actors and crew worked hard and their work paid off when many faculty and students attended the dynamic performances. Currently, we are in the midst of rehearsing "Hamlet", to take to he Massachusetts Drama Guild Festival competition, held on March 2. The final production for this school year will be "Grease" We anticipate another big production with a large cast and even more fun.

We thank all faculty and students for their support.

Hannah Banana! Where do I start? Can you believe we were ever that young? Time seems to fly by too quickly. Through it all we remained friends. Never forget the good old days. Remember the time I squirted milk on Uncle Tony's boot? Or the when I had a leach on my foot? How about the white house in Wellfleet? And going for long walks near Uncle Tim's Bridge? These are just a few of the memories that are forever etched into my heart.

Remember how we went to the ocean everyday one summer? Let's always remember those magical days. Although the sand of time has turned and the tide has taken Her toll, we have survived. We made it through these last four years of high school. They have proven to be the most difficult! If we made it this far, nothing can hold us back. I will always be here for you. No matter where we go to school, you can always call and I will come running fast as I can.
Mom and Tessa wish you the best of luck, too. My mom has so much to tell you, but not yet. With time her secrets will be revealed. We love you.

Love always,
Lesley Besley ☺

You will always be our princess
You will be successful in whatever you do.

Mouse,
God certainly knew what he was doing when he placed you smack in the middle of our family. What a blessing! What a breath of fresh air! Thank you for all that you have given us.
All those years of attending your games for softball to b-ball, to field hockey to golf has been fun, watching you grow and change. We will especially miss those field hockey team spaghetti dinners.
Though you can never go back, don't be sad, rather cherish your good memories and move forward with strength, passion, and enthusiasm.
HAVE FUN!! May you never be without chocolate or icy hot! Please watch out for frozen bananas hitting you in the head and for trees lying across the road. *Modge and Podge*

P.S.
You did really build the "BEST LUCK"!!!

Dear Kristen,
We are so proud of you. We wish you the best in all that you undertake. We dedicate the sentiment from the song "I hope you Dance" to you.

I hope you never lose your sense of wonder.
You get your fill to eat but always keep that hunger.
May you never take one single breath for granted.
When you come close to selling out reconsider.
Never settle for the path of least resistance.
I hope you still feel small when you stand beside the ocean.
Whenever one door closes I hope one more opens. Promise me you'll give faith a fighting chance. And when you get the choice to sit it out or dance, I hope you dance.

Love Mom & Dad

Dear Jenny,
We love you so much! You've got that contagious smile that makes us smile! Good luck to you in college next year! WE are very proud of our "Jenny Benny"!

Love always,
Dad, Mom, Lori, John, and Julia

To Julia, my heart's good morning

The timeless in you is aware of life's timelessness,
And knows that yesterday is but today's memory and tomorrow is today's dream. And that which sings and contemplates in you is still dwelling within the bounds of that first moment which scattered the stars into space.

But if in your thought you must measure time into seasons, let each season encircle all the other seasons, And let today embrace the past with rememberance and the future with longing.

Paragraphed from Gibran's THE PROPHET

Godspeed on life's journey,
Love Mom

Paulette Dawn,
Use your gifts, your voice, sense of humor and contagious laugh to lighten hearts.
May you always listen to your inner voice.
Believe in yourself.

Well "Little Girl", we've gone from tea parties to graduation parties and every part of the journey thus far has been a true pleasure! From the first feel of your sweet baby breath against my cheek to this very day~you have put joy into each and every day. You're magical the way you lighten up a room with your smile or make a sad spirit feel happiness when touched by your compassion. Your sense of humor is unlike any other~it has a way of putting people at ease and making them feel amazing while in your presence. You've always possessed an inner wisdom beyond your years. We thank you for sharing that wisdom to broaden our views. You withhold a strong sense of self which enables you to be comfortable with who you are and accepting of others for who they are! We are so proud of the true you! Your uniqueness is what makes you so wondrous! You are "real" because everything that you are stems from your heart and shines through your actions. You were our first most precious gift and in return you are our gift to the world which so desperately needs your kindness, laughter, optimism, strenghth, loving heart, integrity, and compassion. So sweet girl~ spread your wings, follow your heart and be the change you wish to see in the world! Know that wherever you are you'll always have each of our hearts with you and you will forever be in ours!

Our greatest wish for you ... Be truly happy!

"Sisters, sisters, there were never such devoted sisters."
Mick,
When you walk on the beach for the last time before your graduation, may you leave your unique footprints in the sand to be carried away by the waves into the neverending sea of memories never forgotten. Then run towards home, the home that is your heart. Have fun making new footprints in the sands of time. I'll always remember the footprints we made together and can't wait to make more. I love you sis.
Forever in Footprints,

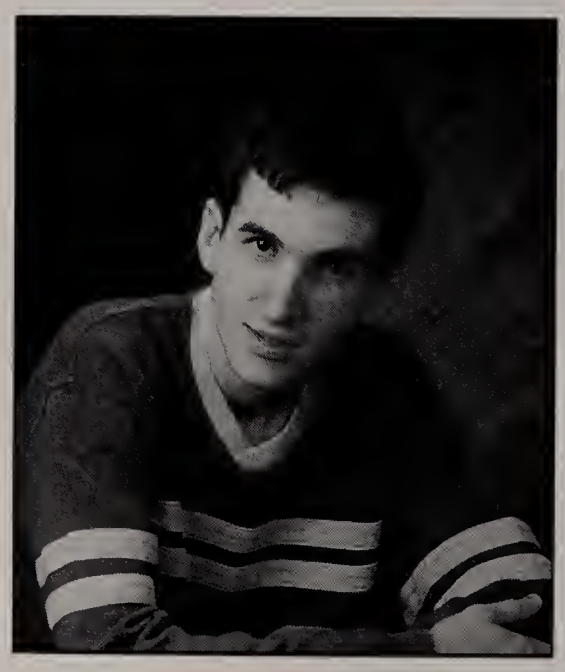
May God bless and keep you always.
May your wishes all come true.
May you always do for others
And let others do for you.
May you build a ladder to the stars
And climb on every rung.
May you grow up to be righteous.
May you grow up to be true.
May you always know the truth
And see the lights surrounding you.



May you always be courageous,
Stand up right and strong.
May your hands always be busy.
May your feet always be swift.
May you have a strong foundation
When the winds of changed shift.
May your heart always be joyful.
May your song always be sung.
May you always stay
Forever young.

Andrew,
Once a 3 year-old came up holding 2 batteries and said: "Dad, these batteries need a truck". We knew we had an imaginative child. You've always traveled your own road, made good decisions. Whatever you decide in your future will make us proud, as we already are.
All our love,

Or something built to try
